About Anglia

Anglia Examinations has specialised in International ESOL (English for Speakers of Other Languages) assessments since 1994. It is based at Chichester College, England. Anglia offers a comprehensive and structured programme of assessing English language competence from beginner through to near-native (C2) level worldwide. This step-by-step approach to testing encourages and motivates students to make clear and effective progress.

Anglia Examinations measure all four language skills – listening, reading, writing and speaking. There are no minimum age requirements for the exams. The Young Learner levels are taken by children as young as four years old. The first four levels are now also available in Adult Learner versions - see page 128. The Higher Levels are taken by students and adults who plan to continue their studies at international institutions or to improve their career prospects.

INTRODUCTION

There are 10 levels to the Anglia General English tests:

- 1) First Step
- 2) Junior
- 3) Primary
- 4) Preliminary
- 5) Elementary
- 6) Pre-Intermediate
- 7) Intermediate
- 8) Advanced
- 9) Proficiency
- 10) Masters

Our tests acknowledge that at the beginning of the language learning process a candidate recognises far more than he /she can actively produce. So, at the first level, First Step, the candidate doesn't have to write any full words at all, but indicates his or her understanding in other ways: matching, colouring, and so on.

After First Step, levels 2-8 closely follow a step-by-step incremental syllabus which tests a little more of the building blocks of the language, and asks for a little more active production at each level. By level 9, Proficiency, the format of the test remains familiar but the candidate is not tied to a list of structures, showing he / she has a good enough active vocabulary and grammatical understanding to undertake a course of study in English in Further or Higher Education. At level 10, the candidate shows that he / she has a wide-ranging active knowledge of the language gained, for example by reading, watching TV and talking with other people in English, and can manipulate his / her knowledge with complete confidence.

Anglia Examinations aim to provide a clear, familiar format for the fair and accurate assessment of the students taking them. The tests are designed so that both the students and their teachers alike know exactly what is required of them on the day, thereby minimising the anxiety of the test situation.

Our aim at all levels is to give confidence to the students taking our examinations, to reward what they've learnt and to encourage them in their language learning.

READING AND WRITING TESTS

R/W

From Preliminary level upwards, the three mandatory skills: reading, writing and listening, are all given an equal weighting of 0.33, which is applied to the overall grade awarded. Therefore, the reading skill and the writing skill are now each worth 33.3% of the overall total. The combined total of the reading and writing paper is therefore worth 66.6% of the total mark.

From First Step to Primary levels, the reading and writing tests are still weighted at 80% of the overall total.

In order to achieve an overall pass in Anglia Exams at the accredited levels (B1 – C2), candidates are now expected to achieve a minimum standard of 40% in each of the mandatory skills (reading, writing and listening). No change has been made to the grade boundaries.

First Step (one hour)

N.B. The children must have colouring pencils or felt tips for this test: red, yellow, green, blue, black, orange and brown.

C1 Proficiency Level (three hours)

PRO

Proficiency (C1) is the level normally used by students applying to university or other institutes of higher/ further education as the qualification which shows that they have international student competence in the English language. In recognition of this, candidates are asked to choose either a general English essay title or an academic English essay title (AcCEPT). AcCEPT stands for Academic Certificate in the English Proficiency Test. It is recommended that students who may want to use the qualification obtained through this exam for university entrance purposes should choose the AcCEPT writing option. This option will include essay titles which will require the candidate to write a structured argument or analysis. Specialised subject knowledge or extensive world knowledge will not be necessary as this is not what is being assessed.

Candidates who know that they do not and will not want to use this qualification for specifically academic purposes, but rather for promotion at work, for example, may choose the general English option. This option will include, as it has always done, the chance to write an imaginative narrative or a detailed description.

Candidates who choose the academic writing option will have AcCEPT Proficiency on their final certificate. Candidates who choose the general English option will have a normal Proficiency certificate. *Both* certificates are qualifications at C1 level.

Section W1A (AcCEPT) or W1 (General) 25 marks

Candidates must choose one of the AcCEPT options **OR** one of the general options

AcCEPT/ Academic English Essay about 300 words

R/W

There will be four titles to choose from. The essay titles cover a range of topics, at least one of which will be science-based for candidates more interested in the sciences than humanities or social sciences.

- 1 *To what extent do you agree with the statement that 'The subject of a university degree is irrelevant. It is better to study any degree than go directly into the workplace'?*
- 2 *Dangerous sports are becoming increasingly popular. Why do you think this is so, and is this a cause for concern?*
- 3 *Outline the arguments both for and against the use of CCTV cameras in towns and cities.*
- 4 *Health and safety concerns are preventing students from carrying out scientific experiments in schools. Many children now watch these experiments on the Internet instead. Outline the advantages and disadvantages of this.*

Academic English essays are formal pieces of writing. In addition to evidence of a good range of vocabulary, good control of tenses and sentence structure, and evidence of enough language to address the title convincingly, markers are looking for a well-structured piece of writing. The essay must have an introduction, which would typically present the question and outline the arguments the writer will use, a main section or body in which the writer will present the detailed ideas with evidence, and a conclusion with a final decision or summing up in which the writer makes his or her position on the title clear. The precise organisation of the essay will clearly depend on the specific title chosen.

General English Composition about 300 words

There will be four titles to choose from, in the following form:

- 1 What are the advantages and disadvantages of
*e.g. What are the advantages and disadvantages of living in the computer age?
What are the advantages and disadvantages of living in a big city?*
- 2 Describe in detail
*e.g. Describe in detail your idea of a perfect city.
Describe in detail a tourist resort you are familiar with.*
- 3 Write an account of...
*e.g. a day which started very badly but ended in great happiness.
a very strange incident which cannot easily be explained.*
- 4 '.....' Discuss.
*Mankind should not use animals for their own benefit. Discuss.
Politics is a pointless activity. Discuss.*

The Use of English section of the examination tests a wide range of grammar, usage and vocabulary, including idiom. There is no set syllabus for this as it tests the depth of knowledge a student has obtained from using the language, through reading, listening and speaking it in a variety of contexts.

R/W

Section W3 10 marks

This section tests the candidate's understanding of the text as a whole, of the specific vocabulary involved and their ability to actively produce similar level language.

Part 2 10 marks

Candidates are asked to make a summary of an aspect of the text in about 100 words.

Section W4 25 marks

One composition title is given. There is no choice of topic. The candidate must use his / her own ideas and the notes given, to write a structured composition, which will include arguing an opinion, of between 300 – 350 words.

SPEAKING TESTS

SPK

Introduction to Speaking Tests

If your students are taking part in the Anglia Speaking Tests, they will need extra guidance to make sure that they are well-prepared. Your role as a teacher will be very important to them, so you should know how it works.

Decide the level

The vast majority of students will take the speaking test at the same level as they are taking the reading/writing and listening tests. The fact that speaking is an active skill without time to reflect and correct, is taken into account in setting the marking criteria and task types for each level. Speaking tests are separately certificated at all levels. The candidate will receive two certificates. On the first certificate, they will receive an overall grade and separate percentages for each of the three mandatory skills. On their speaking test certificate they will receive a separate grade.

Prepare for the test

For the levels up to Preliminary, the students need only prepare if they want to do something extra at the test, like perform a rhyme, chant, poem or song. From Elementary onwards, students are expected to prepare specific parts of the test. Please use the preparation topics in this section where provided to give the student an idea of what to expect during the examination. Most students like to prepare, so perhaps you can help and support them, possibly organise mock examinations, so that they know what to expect.

Taking the examination

For the levels up to Pre-intermediate, you can conduct the examinations, if you meet Anglia's Examiner requirements, with your own students or if required an external examiner can conduct them. The examination is recorded as an MP3 and sent to Anglia Examinations in Chichester (UK) for moderation. At Intermediate and above, an external examiner must conduct them. All materials like pictures, exam forms and instructions, will be sent at least one week before the exam date.

- The examiner shows several sets of these to the students and asks them in turn to - say each of the four words aloud
- say which is the odd-one-out and why.

Task 2: Prepared talk and discussion (8-10 mins)

Each student gives a short presentation (2 - 3 minutes) on a topic from the list. Then students respond to one another's presentations for about 3 minutes each.

C1 PROFICIENCY LEVEL (20 mins for 2 students)

Task 1: Introductory warm up (*up to 4 mins*)

The object here is to give the students the opportunity to feel more comfortable and to be able to warm up by asking the candidates to introduce themselves and tell why they are taking the examination. Explore any particular academic, vocational or professional ambitions they may have.

Among the questions used are:

- How long have you been learning English?
- What are your future plans?

Task 2: Discussion of recent issues in the news (*up to 8 mins*)

The two readings which the students have prepared are on the table. Each candidate is asked which reading they would like to talk about.

Candidates begin by talking about the article uninterrupted, after which the examiner will explore the issues with them.

For example, a short article about computer games and the internet may be followed by questions like this:

- How many hours a week do you spend playing video games or playing games online?
- Is it something only boys do?
- What are the dangers of video games or being online?
- Do violent games really desensitise the players to violence?
- Would a classification and censorship system such as this work?
- Are there any benefits, educational or otherwise, of video games and online games?

Task 3: Semi-prepared topic for discussion (*up to 8 mins*)

Candidates have been given three possible topics for discussion in advance of the exam. Two of those topics are placed on the table. Ask each candidate which topic they have chosen. Then choose at random one of the statements in that group and invite each candidate to speak. These are **not** given to the candidates as preparation material.

The object of this part is to let the candidates speak uninterrupted, after which you will stimulate debate with them. It is at the examiner's discretion when to begin prompting.

Example topic:

GROUP ONE: TOURISM

The individual statements or questions are NOT seen by the candidates before the exam.

1. Tourism will have to be severely reduced to save the planet.
2. Tourism is the single most important way we will all learn to understand each other.
3. There is a big difference between 'tourism' and 'travel'.
4. Tourism is not good for a country because most of the jobs it creates are poorly paid servants.
5. The popularity of tourism proves that this is something all human beings love doing.

Requires preparation by the candidate? YES, candidates prepare material for task 2 and topic vocabulary for task 3

C2 MASTERS LEVEL (20 mins for 2 students)

Task 1: Introductory warm up (*up to 4 mins*)

The object here is to give the students the opportunity to feel more comfortable and to be able to warm up by asking the candidates to introduce themselves and tell why they are taking the examination.

Among the questions used are:

- What's your name and number? (This is a necessary double check with the name and number previously recorded).
- Would you please tell something about yourself and why you are taking this examination?

Other questions could be used such as:

- How long have you been learning English?
- Why did you want to learn it?
- What do you expect to be doing in, say, 20 years' time.
- How do you expect the world to have changed by then?

Task 2: Discussion of recent issues in the news (*up to 8 mins*)

Candidates have prepared the two newspaper articles for this level. They are on the table. Each candidate is asked which article they would like to talk about.

The candidates begin by saying anything they have to say about the article uninterrupted, after which the examiner will explore the issues with them.

For example, a newspaper article about nepotism, corruption, royalty and the animal world may be followed by questions like this:

Possible points to explore. **These are not given to the candidates as preparation material.**

- Can/should we make any deductions about human society by looking at animal 'society'?
- How much of what we do is nature (DNA, genes) and how much is nurture, do you think?
- Is hierarchy in society inevitable? Is a completely egalitarian society possible to achieve?
- Is conflict and cheating in society inevitable? Or is it possible to prevent them?
- Can everything about human society be explained by 'evolution'? If not, what else could explain it?
- Is a worker's life always 'drudgery'? Is a Royal life a desirable one?

Task 3: Unseen debate and discussion (*up to 8 mins*)

Each candidate is asked to choose one of four previously unseen statements. The candidate is invited in turn to give their opinions about it. The object of this part is to let each candidate explain their point of view naturally, after which the examiner will stimulate debate with them.

Example card:

STATEMENT 1

People should have the right to choose when, where and how they die.

STATEMENT 2

Life is sacred. Suicide, for whatever reason, is always wrong.

STATEMENT 3

Looking after one's own young is so basic a human instinct that we should not try and deny it. Mothers should never leave their babies before they are about three years old at least. If they do the baby suffers from mother deprivation and the mother suffers from baby deprivation.

STATEMENT 4

There are many ways of bringing up babies that needn't include the mother as the person who is with them most of the day. Babies need not suffer from this; indeed they often benefit from it.

Requires preparation by the candidate?
material for task 2

YES, candidates prepare
